Prior Notice Identifier:	N/A		
Required Response Indicator:	5		
Response Date:	N/A	Response Time:	N/A
Subject:	Kern River - System Update		

---

Notice Text:

Due to increased projections for electricity demand at power generation facilities connected to Kern River, and continued hotter than normal temperatures in Kern River's market areas, Kern River requires that all shippers and delivery point operators procure enough supply to match physical deliveries to maintain line pack at current levels. Kern River expects delivery point operators that do not have adequate supply will reduce their physical burn to avoid drafting.

Parties are reminded that the system is scheduled at or near operating capacity.

Kern River will take whatever actions are necessary to maintain system integrity.

Customers should visit Kern River's Daily Operational Report (DOR) at <http://services.kernrivergas.com> to monitor system conditions and other important information.

Please contact your Marketing and Customer Services representative or the Customer Services hotline at (801) 937-6111 if you have any questions.

Thank you for your cooperation!
