Notice Text:

SoCalGas and SDG&E continue to experience inclement weather throughout the service territories which is forecasted to continue through the rest of the week. SoCalGas and SDG&E urge customers and shippers to pay close attention to ENVOY throughout this period and schedule their volumes accordingly. Please contact your Account Representative should you have any questions.

SoCalGas continues to work with the Balancing Authorities (CAISO and LADWP) to limit and/or reduce electric generation demand on its system, to the extent it does not impact electric system integrity.

Due to cold weather and high customer demand for natural gas, all SoCalGas storage fields, including Aliso Canyon, are being used to provide system reliability.
