Subject: Kern River - Painter Compressor Station Maintenance

Notice Text:

Kern River reminds its customers of the scheduled controls upgrade at its Painter compressor station beginning Sunday, September 22, 2019, through Saturday, September 28, 2019.

During the maintenance, the operating capacity at Painter compressor will be reduced to zero Dth and no physical flow to the Kern River mainline will be possible. Therefore, the receipt points listed below will be impacted. Kern River customers that are impacted by the maintenance should utilize alternative receipt points located upstream of Kern River's Muddy Creek compressor station and the Goshen receipt point.

Receipt Points Upstream of Painter Compressor

- 014003 Carter Creek
- 014004 Whitney Canyon
- 014005 Painter
- 014011 Clear Creek Receipt
- 014015 Overthrust 121
- 014502 FT Painter Pool
- 014602 IT Painter Pool

Impacted customers should also consider nominating their gas supply to Spire Storage West's underground storage facility. Deliveries would occur through Kern River's Clear Creek delivery meter (024021). Gas delivered to Spire during the maintenance cannot be delivered to the Kern River mainline until after the maintenance is completed. If you are interested in delivering to Spire's underground storage facility, ask your Kern River representative for contact information.

Kern River requires all shippers and delivery point operators to align daily scheduled nominations and physical receipts and deliveries to maintain line pack and system integrity.

Customers should go to Kern River's Daily Operational Report (DOR) website at

<https://services.kernrivergas.com> to view important information.

Please contact your Marketing & Customer Services representative or the Customer Services hotline at 801-937-6111 should you have questions.

Thank you for your cooperation!
