Notice Text:

HIGH INVENTORY SYSTEM-WIDE OFO

Message Date: 1/27/2020

Pacific Gas and Electric Company's California Gas Transmission has announced a High Inventory System-Wide OFO for flow day 1/28/2020.

OFO Stage: 1
Inventory Level: High
Noncompliance Charge: \$0.25/Dth
Tolerance Band: 5%

Customer or Balancing Agent scheduled nominations may not exceed daily usage by the above-referenced tolerance band percentage in order to avoid OFO noncompliance charges. Scheduled nominations less than usage, are not subject to OFO noncompliance charges during a high inventory OFO.

California Production Balancing Agreement (CPBA) Authorized Agent scheduled nominations may not be less than actual daily production deliveries by more than the above-referenced tolerance band percentage in order to avoid OFO noncompliance charges. Scheduled nominations greater than actual daily production deliveries are not subject to OFO noncompliance charges during a high inventory OFO.

Compliance requirements and noncompliance charges are defined in gas Rule 14, available at www.pge.com/tariffs.

For details on how noncompliance charges are calculated, refer to http://www.pge.com/pipeline/library/ofo_efo_diversions/ofo_bill/index.page.

Current pipeline status and OFO information is available on the Pipe Ranger web site www.pge.com/pipeline. If you have further questions, please contact a Gas Scheduler via the CGT Helpline 1-800-343-4743.
