Response Date: N/A Response Time: N/A
Subject: Kern River - Common Facility Line 1901 In-Line Inspection Maintenance

Notice Text:

Mojave Pipeline Operating Company (MPOC), operator of the Common Facility, will conduct In-line Inspection (ILI) pigging operations on Line 1901 (L1901) of the Kern River/Mojave Common Facility between the Daggett compressor station and the Wheeler Ridge delivery meter beginning Saturday, February 20, 2021, through Tuesday, February 23, 2021.

This maintenance will require a reduction of the total operating capacity to 1,000,000 Dth through the single-line section of L1901 during gas days Sunday, February 21, 2021, and Tuesday, February 23, 2021. Therefore, it is imperative that all customers align daily scheduled nominations with physical receipts and deliveries to ensure Kern River's line pack and system integrity are maintained.

During the maintenance the operating capacity will be below the primary firm contracted capacity; however, current nomination patterns and scheduled quantities on Kern River indicate only interruptible and secondary firm service may be impacted. Kern River reminds its customers to submit their nominations in the Timely cycle, or as early as possible, to optimize priority of service.

All delivery meters downstream of the Boron delivery meter located on the East Lateral and West Lateral may be impacted. All other facilities on the Kern River system, including deliveries to the Kramer Junction, Sidewinder, and Boron delivery meters, will not be impacted by the maintenance. Kern River encourages its customers that plan to nominate to Southern California Gas to consider moving their Wheeler Ridge nominations to Kramer Junction in the event nominations are impacted by the reduced operating capacity during the maintenance. Customers should contact Southern California Gas and their markets to evaluate this option.

Please review the important information that is posted to Kern River's Daily Operational Report at <https://services.kernrivergas.com> and contact your Marketing & Customer Services representative or the Customer Services Hotline
