Subject:	New Tariff Filing, Docket No. RP22-352

-----

Notice Text:

On November 30, 2021, Kern River submitted to the Federal Energy Regulatory Commission (FERC) a filing to make housekeeping changes in Kern River's Tariff, including the following: (1) remove the abandoned Anschutz compressor station from the list of fuel factors; (2) replace a docket number placeholder with the proper docket number; (3) remove one transportation service agreement ("TSA") which has been terminated; (4) reflect name changes for various shippers, a receipt point and a delivery point for negotiated rate agreements; (5) add the complete footnote to a previously filed and accepted TSA; and (6) revert four recently revised footnotes back to their original term expiration dates and assign a new footnote to address the four TSAs that were revised in Docket No. RP22-126, effective December 31, 2021.

A copy of the filing is available in FERC's eLibrary. Instructions to access eLibrary documents and/or to subscribe to specific FERC proceedings are available on Kern River's Informational Postings website: <https://services.kernrivergas.com/portal/Informational-Postings/Regulatory>.

Please contact your Marketing & Customer Services representative or the Customer Services hotline at 801-937-6111 if you have questions.
