Subject: Baker to Meacham SCCDA Digs - NEW Maintenance Update

Notice Text:

Northwest Pipeline would like to inform its customers that there have been additional changes to the available southbound capacity at the Meacham CS for the Baker to Meacham SCCDA Digs from Gas Day June 05, 2024, through Gas Day August 16, 2024, as posted on Northwest Pipeline's website and referenced in All Shipper Notice #24-097.

Effective Gas Day June 24, 2024, through Gas Day July 23, 2024, the southbound capacity at the Meacham CS will be limited to 309,000 Dth/d; and, effective Gas Day July 24, 2024, through Gas Day August 16, 2024, the southbound capacity at the Meacham CS will be limited to 441,000 Dth/d.

If primary nomination requests through the Meacham CS exceed the available southbound capacities detailed above from Gas Day June 24, 2024, through Gas Day August 16, 2024, (or whatever NWP cannot mitigate during any day of the maintenance), pursuant to Sections 10.2 and 10.3 of Rate Schedule TF-1 in Northwest's Tariff, Northwest will give notice of a Declared Deficiency Period based on a design capacity of 500,000 Dth/d southbound. The deficiency period will continue until the work is completed on Gas Day August 16, 2024.

Please reference the Maintenance Schedule tab at www.northwest.williams.com for more information.

If you have any questions, please call your Commercial Services Representative or the hotline at 713-215-6301.
