Subject:	Kern River - Fillmore Compressor Station Unit 2 Force Majeure

Notice Text:

On August 7, 2026, Kern River experienced a mechanical failure on Unit 2 at the Fillmore compressor station, which constitutes a Force Majeure Event under Section 7.1 of the General Terms and Conditions of Kern Rivers FERC Gas Tariff. Kern River is diligently working to complete the necessary repairs and return the unit to service. More information will be posted as it becomes available.

Effective gas day August 7, 2026, ID2 cycle, the operating capacity at the Fillmore Compressor Station will be reduced to 2,286,229 Dths. For gas day August 8, 2026, Timely cycle, the Fillmore Compressor Station capacity will be set to 2,268,000 Dths. All delivery meters located downstream of the Fillmore compressor station may be impacted.

Kern River will continue to evaluate system conditions and nomination flow patterns each cycle to determine operational capacity levels that maximize throughput.

Kern River requires all customers to align daily scheduled nominations with physical receipts and deliveries to ensure that Kern River can maintain its line pack and system integrity.

Shippers are reminded to submit nominations in the Timely Cycle, or as early as possible, to optimize priority of service.

If you have questions, please contact your Marketing and Customer Services representative or the Customer Services hotline at (801) 937-6111.
