Subject:	Kern River - Higher Demand Forecasted - Drafting is Impacting Line Pack Levels

Notice Text:

Kern River continues to experience high demand and utilization on its system. Continued drafting is impacting line pack. The current weather forecast shows temperatures and demand will be higher than normal in Kern River's market areas through the weekend.

Shippers and receipt and delivery point operators are required to align daily scheduled nominations with physical receipts and deliveries to maintain line pack and system integrity. Drafting will not be approved until line pack returns to normal.

Customers should visit Kern River's Daily Operational Report (DOR) at <https://services.kernrivergas.com> to monitor system conditions.

Please contact your Marketing and Customer Service representative or the Customer service hotline at (801) 937-6111.
