Subject: Sumas Compressor Station Deficiency Period

Notice Text:

As indicated in All Shippers Notice #26-156, Northwest is currently performing maintenance at the Sumas CS through September 01, 2026.

Primary southbound nomination requests at the Sumas CS have exceeded the available capacity of 968,000 Dth/d southbound (or whatever Northwest cannot mitigate). Therefore, pursuant to Sections 10.2 and 10.3 of Rate Schedule TF-1 in Northwest's Tariff, Northwest hereby gives notice of a Deficiency Period for Gas Day September 01, 2026. The Deficiency will be calculated based on a design capacity of 1,409,000 Dth/d southbound. The Deficiency Period will continue until the work is completed. Northwest will post on its EBB if unable to mitigate volumes each day until the work is completed.

As a reminder, the Sumas Meter Upgrade Part 2 referenced in All Shippers Notice #26-162 will further limit the available capacity to 821,000 Dth/d southbound beginning Gas Day September 02, 2026, through Gas Day September 09, 2026.

Please reference the Maintenance Schedule tab at www.northwest.williams.com for more information.

If you have any questions, please call your Commercial Services Representative or the hotline at 713-215-6301.
