Notice ID: 26-194
Prior Notice: 26-173
Subject: Mt Vernon Outage Extended

Notice Text:

As posted in the maintenance schedule on Northwest Pipeline's website, Northwest is currently performing maintenance at the Mt. Vernon CS (located at MP 1440.18 in Skagit County, Washington) from Gas Day September 10, 2026, through Gas Day September 23, 2026, and referenced in Notice ID 26-173. However, due to delays on work, this outage has now been extended through Gas Day September 29, 2026.

The Mt Vernon CS will continue to be limited to 1,113,000 Dth/d southbound through the extended outage.

If primary nomination requests through the Sumas CS exceeds the available capacity of 1,113,000 Dth/d southbound (or whatever NWP cannot mitigate during any day of the maintenance), pursuant to Sections 10.2 and 10.3 of Rate Schedule TF-1 in Northwest's Tariff, Northwest will give notice of a Declared Deficiency Period based on a design capacity of 1,277,000 Dth/d southbound. The deficiency period will continue until the work has been completed.

Northwest Pipeline apologizes for this extended delay and is working diligently to safely bring this station back into service as quickly as possible to minimize any potential impacts.

Please reference the Maintenance Schedule tab at www.northwest.williams.com for more information.

If you have any questions, please call your Commercial Services Representative or the hotline at 713-215-6301.
