| Subject:                     | Kern River - Muddy Creek B Controls Upgrade Maintenance Reminder |

-----

Notice Text:

Kern River reminds its customers of the Muddy Creek B Unit #5 compressor station controls upgrade maintenance scheduled for Monday, September 28, 2026, through Friday, October 9, 2026. The Muddy Creek estimated operational capacity will be reduced to 1,896,000 Dth/day during the maintenance. For the duration of the project, Units #4 and #6 will be available. Kern River anticipates Interruptible, secondary firm, and primary firm services may be impacted.

Kern River requires all shippers, and receipt and delivery point operators align daily scheduled nominations and physical receipts and deliveries to ensure Kern River's line pack and system integrity are maintained.

The Muddy Creek A compressor station and all other facilities on the system will not be impacted by the maintenance. Kern River reminds its customers to submit their nominations in the Timely cycle, or as early as possible, to optimize priority of service.

Kern River encourages its customers to consider the following alternative receipt points downstream of the Muddy Creek compressor station in the event nominations are impacted by the reduced operating capacity during the maintenance:

| <u>Location / Meter Name</u> | <u>Meter Number</u> |
|------------------------------|---------------------|
|------------------------------|---------------------|

Wyoming - Painter Lateral

Carter Creek - Columbia Gulf014003

Whitney Canyon - Spire Storage West014004

Painter - North Shore014005
